ARROW TRACERS

Used for increased visibility successful archers and hunters will love these. Feather tracers will help you see your arrow all the way to your target. Tracers add virtually no weight and double as a wind direction aid.

FAST FLETCH GLUE

Incredibly strong, weather resistant bond. Use with feathers or plastic vanes on carbon, aluminum and wood shafts; nocks and inserts. Wets the surface without running and it's triple distilled for purity. Big 1-oz. bottle.

LITTLE CHOPPER

This unique tool allows "do it yourselfers" with the desire for "Specialty" shapes and sizes to cut what they want. There are 11

selections of these choppers in 6 shapes including Pope & Young, The Classic, Traditional, Shield, Parabolic and Banana.

WATERPROOFING POWDER

"Remarkable" is how experienced shooters describe their results after applying Gateway's Waterproofing powder to their fletched arrows. This non toxic, odor free and weightless powder will help guide your feather fletchings in any weather!

DVD's

Gateway Feather's Building the Perfect Arrow

Go Step by Step with Byron Ferguson, Master of the Longbow, as he builds a hunting arrow! Watch as Champion Target Archer, Chance Beaubouef, shows you how he builds a target arrow!

Byron Ferguson's World of Adventure Video Series Vol.2 - Incredible Shots

Byron performs shots that are simply unbelievable, from shooting baby aspirins out of the air to splitting playing cards, deflections off multiple boards, long range shots, shooting the caps off coke bottles. The list goes on and on.

Byron Ferguson's World of Adventure Video Series Vol.1 - Become the Arrow

Byron shares his philosophy and techniques for hitting the bull's-eye or cleanly striking game in the vitals. When you become the arrow, you extend your mental approach to accurate shooting.

Shapes & Sizes

Parabolic or round back shape is a lower profile shape providing fast accurate arrows.

Shield or Shield back shape provides a different profile for increased stability, forgiveness and "Traditional" looking appeal.

Magnum or Banana shape is a 5 1/2" feather designed for arrows with larger/heavier broadheads.

Whisper Quiet Technology

Whisper Quiet Technology ensures the new 2 inch long and 1/2 inch high 1.7 grain feather is cut from a specific location within the full feather and that the shape be double checked by hand to ensure each feather conforms to stringent shape requirements.
